---

### Food Offerings

*Describe (in general) the types of food your farm can supply to FSF members, including what products are typically offered by season, in what quantities, and at what estimated pricing.*

Parker Farms offers 100% grass-fed beef and lamb, pastured poultry and eggs, and grain-fed pork. We have been practicing Management Intensive Grazing since 1997, and our goal is to care for all of the livestock that we have been blessed with in as natural and humane a manner as we can. We use no antibiotics or growth hormones and use no petroleum-based pesticides or fertilizers on our pastures. We believe that healthy people and healthy animals start with healthy plants and a healthy, biologically active, soil community. Parker Farms delivers pre-ordered shares to Fair Share Farm every other week during the CSA season.
